REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to show or to suggest an distributed optical fiber sensor system comprising of all the elements as presently claimed where in light source emits a first pulse light having a pulse width longer than a transient response of an acoustic phonon and emitting a second pulse light in succession to the first pulse after a time interval during which the vibration of the acoustic phonon is substantially maintained to supply the first and second pulse lights to the optical fiber and wherein the detector detects the scattering gain spectrum at time intervals corresponding to twice the time obtained by equally dividing the pulse width of the second pulse light.

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Brown et al. (US 20050213869).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
